Please do not stop XM from providing instant traffic. I listen to it everyday and base my morning and evening commute on the instant information that I receive. I am able to avoid accidents in advance, decreasing congestions which I am sure helps local officials to clean up accidents.

I urge you to vote in favor of anything that continues and advances satalite radio and vote against anything that limits it. America is founded on advance thinkers and I hope we continue that tradition!

Concerned voter and avid XM listener,

Heather Johnston
